

EDITORIAL

We are very proud to announce one more edition of the *International Journal of Research in Mathematics Education* – RIPEM, published by the Brazilian Society of Mathematics Education – SBEM.

We are grateful to the authors who submitted papers to RIPEM and, of course, the peer reviewers for their continued commitment to our publication process. In this issue, eight full papers written by authors from Brazil, USA and Portugal have been published on-line. All of them were carefully revised for grammatical correctness by our English Journal Reviewer, Ms. Maria Isabel de Castro Lima.

Finally, we hope that the *International Journal of Research in Mathematics Education* will continue to improve its quality in the years to come, receiving more and more submissions from all over the world.

Cláudia Regina Flores
Editor-in-chief
